MY EXPERIENCE

Requests for information and help from:

- families, former members of religious groups, journalists, etc...
- people affiliated with religious and spiritual movements

Discrimination: to judge people on the basis of their **group identities**, rather than as **individuals**

THE «CULT» STIGMA

- Using the word “**cult**” (“**setta**”) as a stigma
- The divergence of these groups from the mainstream may lead to tendencies for them to be labeled as “**dangerous**” in the social context
- This **labeling process** can lead to violations of human rights or other harm
- **Increased deviance**

STIGMA: NEGATIVE CONSEQUENCES

- Difficulty in **finding or keeping a job**
- Unnecessary **strains** in family or romantic relationships
- **Antagonism** by neighbors
- Stereotyping people can easily lead to **objectification and demonization**: members of religious groups are *brainwashed people*
- **Derision or isolation of children** at school
- Stigma and anti-cult/media propaganda **cause harm to children**

PROTECT CHILDREN

**«Rather than be born from a sect leader,
I would have never been born!»**

INSTITUTIONAL OFFICIAL REPORTS

- **In February 1998** the Ministry of Internal Affairs published a report, **“Religious sects and new magic movements in Italy”**
- Police intelligence created the report simply collecting **unreliable rumors**
- The report has been converted **in headline news overnight** by sending it to several politicians and journalists
- This infamous Report has been discredited and criticized for years, but **it is still cited and used** as a reliable source
- Meneghetti Case (Ontopsicologia)

REPRESSIVE LAW (MENTAL MANIPULATION)

- Members of Parliament have been proposing, from 2000 to 2013, three different bills for punishing the “mental manipulation” crime

“[...]Anyone who, with violence, or techniques used in order to condition personality, puts someone into a state of subjection that eliminates his/her ability to judge and withstand pressures from others, so that he/she removes the freedom of self-determination, shall be punished with imprisonment from four to eight years”

ART. 613-bis, bill for the re-introduction of the crime of “plagio”.

REPRESSIVE ANTICULT SQUAD*

- The **Italian Constitution** declares that "all the religious confessions are equally free in front of the law"
- In 2006 the Italian State has established the necessity to open a specific **department of Police to fight back the "cults (sette)"**
- Anti-cult Squad has achieved **resounding miscarriages of justice** in Florence, Bari, Assisi
- It is coordinated by representatives and "experts" identifiable as **insiders of anti-sects groups**

MARCO DIMITRI (SATAN'S CHILDREN)

The result of the anti-cult/media propaganda and instigation is moral panic and, in some cases, also persecution, and the unfair imprisonment of innocent people

SOME CASES (1985-2013)

Scientology 1988-2000 religion and not a criminal association

Damanhur 1991-1992 no drugs, weapons and dead bodies

Children of Satan 1996 non-existence of the fact

Angels of Sodoma 2002 never existed

Ananda Assisi 2004 all defendants acquitted

Osho Campus 2007 Anti cult Squad raid

Arkeon 2007 Arkeon was not a psycho-cult

Re Maya 2010 under investigation

MISA 2012 under investigation

CONCLUDING COMMENTS

- Ask for “state neutrality and equal protection before the law as fundamental safeguards against any form of discrimination”
- Stigmatization and demonization of a group because of the behavior of one of its members or leaders must be unequivocally condemned
- “... Independent national or regional information centers on groups of a religious, esoteric or spiritual nature”
- Reliable information ... “neither exclusively **from the sects** themselves nor **from associations** set up to defend the victims of sects”
- Safeguard Free Speech
- Nobody and no religion, whether historical or new, is above the law
